## **SEASON OF 1909**

**(Seed Crop of 1908)**

To Our Friends and Customers:

It is with real regret that we advise you that the past season has been very unfavorable for a great many varieties of seeds, and we are obliged to advance our prices on such items as are short, especially Table Beets, Musk Melons, Cucumbers and Peas. Some things are practically a total failure and our stock is therefore extremely limited.

On the other hand, some crops have been good, and if you compare our former price list you will find we have made some very material reductions on Onion Seed, Kentucky Blue Grass and Red Clover and a number of other important vegetable and field seeds.

Unless we have what we believe to be strains of good quality we shall report "sold out," as we do not care to buy our seeds from questionable sources at any price when our regular stocks are exhausted.

We appreciate the business you have given us the past year and hope to be favored with your confidence again this season.

Remember, we want to be advised if anything goes wrong with your order. We are human and sometimes make mistakes, but, on the whole, we think we make very few and our success in business is proof that we do our work well.

Respectfully yours,

C. C. MORSE & CO.

## SWEET PEAS

We are the largest growers of sweet pea seed in the world.

NOTE. If any of our customers are familiar with a name of a variety that does not appear here, and will write us for it, we can probably send precisely the same shade of color in an improved variety under one of the names we list here.

Our 1907 issue of "FIELD NOTES ON SWEET PEAS" will be mailed on application.

Our price per ounce is one-tenth of the pound price, with a minimum charge of 10c.
